## SKILLS

**Language:** C, C++, JavaScript, HTML, CSS

**Framework & Libraries:** React.js, Node.js, Express.js, Tailwind CSS

**Databases:** MongoDB, MySQL, PostgreSQL

**Core CS Concepts:** Data Structure & Algorithms, DBMS, Operating System, OOP, Computer Networks

**Version Control:** Git, GitHub

**API Tools:** REST APIs, OAuth, Postman

## EXPERIENCE

Elixir Strategic Management Pvt. Ltd.

Nagpur, India

**Software Developer Intern**

**Jun2025 – Aug2026**

- Implemented client-side input validation and error handling within React.js forms, decreasing form submission error rates and improved the user experience across all platforms.
- Integrated form modules with RESTful APIs, enabling secure data validation and seamless backend communication.
- Enhanced form usability with input validation, error handling, and responsive design optimized for cross-device compatibility.

## PROJECTS

**BorrowBox** | MongoDB, Express.js, React.js, Node.js, JWT, Nodemailer | [-GitHub](#)

- Built a role-based access system enabling 3+ admin operations (add/edit/delete books) via an intuitive Admin Panel, to improve efficiency.
- Secured 100% of user sessions with JWT-based authentication and hashed tokens, with support for password reset and update flows.
- Customized a searchable Book Catalog and borrowing system with overdue fine calculation, tested with 30+ sample transactions.

**Auth System** | MongoDB, Express.js, React.js, Node.js, JWT, Nodemailer | [-GitHub](#)

- Architected a JWT-based authentication system, HTTP-only refresh token cookies, and OAuth2-powered email OTP verification for secure account activation.
- Implemented session management with device tracking (IP + user-agent) and centralized logout controls, allowing users to revoke single or all active sessions.
- Built a responsive React frontend with protected routes, real-time form validation, and secure token handling for seamless and private user access.

**Pro Manage** | React.js, Tailwind CSS, Redux Toolkit, Lucide | [-LIVE](#)

- Built a scalable project management web app using ReactJS, Redux Toolkit for global state management, and Tailwind CSS with Lucide React for modern UI design.
- Developed end-to-end features for multi-workspace management, task assignment, role-based user access, and tracking team progress.
- Implemented analytical dashboards to visualize key metrics, including project completion rates, progress tracking, and team activity logs.

## EDUCATION

Suryadaya collage of engineering and technology

Nagpur, India

**Bachelor of Engineering in Computer engineering**

**2022 – 2026**
