+91-9766553941 | mongasekhilesh@gmail.com | linkedin.com/in/khilesh-mongse | github.com/KHILESHMONGSE | [Portfolio](#)

Skills

Languages: C, C++, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL, PostgreSQL

Core CS Concepts: Data Structures & Algorithms, DBMS, Operating Systems, OOP, Computer Networks

Version Control: Git, GitHub

Developer Tools: Linux, Docker, Visual Studio, Anti-gravity

API Tools: REST APIs, OAuth, Postman

Experience

Elixir Strategic Management Pvt. Ltd.

June 2025 - Present

Software Development Intern

Nagpur

- Implemented client-side input validation and error handling within React.js forms, decreasing form submission error rates and improved the user experience across all platforms.
- Integrated form modules with RESTful APIs, enabling secure data validation and seamless backend communication.
- Enhanced form usability with input validation, error handling, and responsive design optimized for cross-device compatibility.
- Collaborating in Agile sprints with senior developers; practicing **Git/GitHub**, code reviews, and best practices in frontend development.

Projects

ShelfStack | MongoDB, Express.js, React.js, Node.js, JWT, Nodemailer | [-Github](#)

- Built a role-based access system enabling 3+ admin operations (add/edit/delete books) via an intuitive **Admin Panel**, to improve efficiency.
- Secured 100% of user sessions with **JWT**-based authentication and hashed tokens, with support for password reset and update flows.
- Customized a searchable Book Catalog and borrowing system with overdue **fine calculation**, tested with 30+ sample transactions.
- Architected a real-time Admin Dashboard to manage 50+ users, promote admins, and track borrowing activity with live status updates.

AcadX Tech | MongoDB, Express.js, React.js, Node.js, JWT | [-Github](#)

- Created a full-stack application using **React.js** and **Node.js** for service request processing in the web services industry.
- Designed an intuitive Admin Panel to manage 50+ user records and streamline operational workflows.
- Implemented **OAuth**-based authentication to control access and handle user sessions.
- Deployed **CRUD** functionality with backend optimizations to improve data retrieval performance, tested with 10+ data operations.

FormiFi | Next.js, Prisma, Ollama, TypeScript | [-Github](#)

- SaaS web application that 100% automates form creation using **Ollama** with AI integration.
- Reduced manual form creation from 30 minutes to under 5 minutes using Ollama and **DeepSeek Coder APIs**.
- Developed a **role-based** Admin Dashboard to manage 3+ user roles and minimize manual updates.
- Created reusable UI components to support 10+ field types.

Education

Suryodaya College Of Engineering & Technology, Nagpur

2022 - 2026

B.Tech in Computer Engineering

Nagpur, Maharashtra

Jankidevi Jaiswal, Nagpur

2022 - 2026

Maharashtra State Board of Secondary and Higher Secondary Education

Nagpur, Maharashtra
